Professional Summary

Final-year BSc CSIT student passionate about crafting intuitive and visually engaging digital experiences. Focused on frontend development and UI/UX design, with hands-on experience building responsive, user-friendly interfaces. Skilled in modern technologies including React.js, Next.js, Tailwind CSS, and Figma, supported by a solid understanding of user-centered design principles. Seeking an internship where I can contribute creative problem-solving, clean UI implementation, and thoughtful design decisions while continuing to grow in a collaborative, product-focused environment.

Technical Skills

Frontend:	HTML5, CSS3, JavaScript, React.js, Tailwind CSS
UI/UX Design:	Figma, Canva
Tools & Others:	Git, GitHub

Projects

Nepal Wildfire Prediction & Awareness System   *Wildfire Risk Awareness Platform*

- Developed a responsive prediction and awareness platform using **React**, **Tailwind CSS**, and **FastAPI**
- Implemented a modern interface with structured sections including Hero, Features, News, and Mission for clear information delivery
- Built REST API integration to fetch and display wildfire risk insights in real time
- Focused on usability and accessibility to support public awareness, preparedness, and prevention efforts

Portfolio Website   *Personal Branding Platform*

- Built a modern personal portfolio using **React**, **Tailwind CSS**, and **Framer Motion**
- Designed a clean and consistent layout to effectively highlight skills, projects, and professional details
- Implemented smooth animations and interactions to enhance user engagement and browsing experience
